

## CONTENTS—continued

**PROPULSION AND POWER**

- Influence of Random Residual Stress on Fretting Fatigue ..... M. P. Enright, K. S. Chan, J. P. Moody, P. J. Golden, R. Chandra, A. C. Pentz ..... 881

**SPACE TECHNOLOGY**

- Microvibrations Induced by a Cantilevered Wheel Assembly with a Soft-Suspension System ..... Z. Zhang, G. S. Aglietti, W. Zhou ..... 1067

**STRUCTURAL MECHANICS AND MATERIALS**

- Generalized Methodology for Assembly and Reduction of Component Models for Dynamic Substructuring ..... S. N. Voormeeren, P. L. C. van der Valk, D. J. Rixen ..... 1010
- High-Temperature Performance of Actively Cooled Vapor Phase Strengthened Nickel-Based Thermostructural Panels ..... S. J. Pérez-Bergquist, N. Vermaak, T. M. Pollock ..... 1080

**THERMOPHYSICS AND HEAT TRANSFER**

- Proper Orthogonal Decomposition for Reduced-Order Thermal Solution in Hypersonic Aerothermoelastic Simulations ..... N. J. Falkiewicz and C. E. S. Cesnik ..... 994

**BOOK REVIEW**

- Sparse Image and Signal Processing: Wavelets, Curvelets, Morphological Diversity* ..... A. T. Fam ..... 1087
