

CONTENTS

Stability analysis of cantilever double soldier-piled walls in sandy soil <i>Chung-Jung Lee, Yu-Chen Wei, Huei-Tsyrr Chen, Yu-Yi Chang, Yi-Chian Lin and Wen-Shi Huang</i>	449
Management of water disputes using multireservoir operations <i>W.-C. Huang, C.-L. Hsieh, C.-C. Chou and R.-T. Lin</i>	467
Chemico-geomechanical sensitivities of tropical peat to pore fluid pH related to controlling electrokinetic environment <i>Afshin Asadi, Bujang B.K. Huat, Mohamed M. Hanafi, T.A. Mohamed and Nader Shariatmadari</i>	481
A translator approach for distributed earthquake engineering hybrid simulation across heterogeneous environments <i>Y.-S. Yang, C.-T. Yang, S.-H. Hsieh, L.-X. Lin and K.-C. Tsai</i>	489
Determining 2D notch SIFs by the image-correlation method <i>S.H. Ju, H.Y. Chung and S.H. Liu</i>	503
Power-aware compression scheme for multiple scan-chain <i>Jiann-Chyi Rau and Po-Han Wu</i>	515
Low-power way-predicting cache based on intrablock access <i>H.-C. Chen</i>	529
Error-robust scalable extension of H.264/AVC ubiquitous streaming using the adaptive packet interleaving mechanism <i>Chung-Ming Huang, Chung-Wei Lin and Lun-Chia Kuo</i>	539
Effects of different interlayers on indium-tin oxide thin films sputtered on flexible PET substrates <i>G.A. Porter, C.K. Chao, R.C. Chang and Y.C. Li</i>	549
Modeling of temperature and humidity ratio in an automobile passenger compartment for automobile air conditioning systems <i>Sheng-Luen Chung and Chung-Lun Li</i>	559
Compact circularly polarized short backfire antenna with improved bandwidth and less radiations blockage <i>Muhammad Javid Asad, Muhammad Zafrullah, Muhammad Khawar Islam and Muhammad Amin</i>	573
