

CONTENTS

Static error budget analysis for a land-based dual-camera mobile mapping system <i>Jiann-Yeou Rau, Liang-Chien Chen, Cheng-Chang Hsieh and Ting-Ming Huang</i>	849
Soil improvement using electroosmosis with the injection of chemical solutions: laboratory tests <i>Shao-Chi Chien, Chang-Yu Ou and Yong-Hua Wang</i>	863
Model for analysis of heterogeneity in product acquisition procurement <i>Kwo-Wuu Wang and Wen-der Yu</i>	877
Seismic performance of bridges with rubber bearings: lessons learnt from the 1999 Chi-Chi Taiwan earthquake <i>Chih-Hung Lu, Kuang-Yen Liu and Kuo-Chun Chang</i>	889
A non-linear transformation applied to boundary layer effect and thin-body effect in BEM for 2D potential problems <i>Yao-Ming Zhang, Yan Gu and Jeng-Tzong Chen</i>	905
Mechanical properties and thermal stability of a Cu-based bulk metallic glass microalloyed with silicon <i>Pei Hua Tsai, I Sui Lee, Sheng Rui Jian and Jason Shian Ching Jang</i>	917
Punch problem for piezoelectric ceramic half-plane <i>Ru-Li Lin and Zheng-Hong Wu</i>	925
Efficient computation of very high effective-precision exponential function with additive normalization method <i>Rui-Lin Chen and Chichyang Chen</i>	935
Emotion classification by removal of the overlap from incremental association language features <i>Jheng-Long Wu, Liang-Chih Yu and Pei-Chann Chang</i>	947
The signaling efficiency of group mobility management in Cellular IP <i>Jeng-Ji Huang and David Shiung</i>	957
Optimizing of ANFIS for estimating INS error during GPS outages <i>Ahmed Mudheher Hasan, Khairulmizam Samsudin and Abdul Rahman Ramli</i>	967
The design and implementation of an interactive exergaming platform <i>Cheng-Tse Chuang</i>	983
Further investigation of vibration induced by harmonic loadings applied at circular rigid plate on half-space medium <i>Gin-Show Liou</i>	995
