

# JOURNAL OF PROPULSION AND POWER

VOLUME 27, NUMBER 4

U-05-2-2

雙 v.27

月 n.4

JULY-AUGUST 2011

## FULL-LENGTH PAPERS

- Background Pressure Effects on Ion Velocity Distribution Within a Medium-Power Hall Thruster ..... M. R. Nakles and W. A. Hargus Jr. 737
- Hall-Effect Thruster—Cathode Coupling, Part I: Efficiency Improvements from an Extended Outer Pole ..... J. D. Sommerville and L. B. King 744
- Hall-Effect Thruster—Cathode Coupling, Part II: Ion Beam and Near-Field Plume ..... J. D. Sommerville and L. B. King 754
- Ion Thruster Performance Impacts due to Cathode Wear ..... D. M. Goebel, J. E. Polk, I. G. Mikellides 768
- Thrust Stand Characterization of the NASA Evolutionary Xenon Thruster ..... K. D. Diamant, J. E. Pollard, M. W. Crofton, M. J. Patterson, G. C. Soulas 777
- Model of Ideal Electrohydrodynamic Thruster ..... L. Pekker and M. Young 786
- Numerical Simulations of Liquid Rocket Coaxial Injector Hydrodynamics ..... J. Tsohas and S. D. Heister 793
- Numerical Study of Erosive Burning in Multidimensional Solid Propellant Modeling ..... V. D. Topalian, J. Zhang, T. L. Jackson, A. H. G. Isfahani 811
- Test-Based Thermal Decomposition Simulation of AP/HTPB and AP/HTPE Propellants ..... K.-h. Kim, C.-k. Kim, J.-c. Yoo, J. J. Yoh 822
- Side Loads in Subscale Dual Bell Nozzles ..... C. Génin and R. H. Stark 828
- Automated Design Optimization of a Three-Dimensional Subsonic Diffuser ..... A. Aranake, J. G. Lee, D. Knight, R. M. Cummings, J. Cox, M. Paul, A. R. Byerley 838
- Experimental Investigation of Combustion of Jet Fuels and Surrogates in Nonpremixed Flows ..... S. Humer, R. Seiser, K. Seshadri 847
- Flame Studies of Conventional and Alternative Jet Fuels ..... C. Ji, Y. L. Wang, F. N. Egolfopoulos 856
- Fuel-Rich Combustion Characteristics of Biswirl Coaxial Injectors ..... K. Ahn, S. Seo, H.-S. Choi 864
- Optimal Architecture for Efficient Simple-Cycle Steady-Flow Combustion Engines ..... S. Ramakrishnan, K.-Y. Teh, S. L. Miller, C. F. Edwards 873
- Streamwise Evolution of Loss in a Shrouded Axial Compressor Cascade Passage ..... J. W. Kim, S. J. Song, T. Kim 884
- Effect of Tip Clearance on the Performance of a Three-Bladed Axial Inducer ..... L. Torre, A. Pasini, A. Cervone, G. Pace, P. Miloro, L. d'Agostino 890
- Transient Three-Dimensional Side-Load Analysis of Out-of-Round Film-Cooled Nozzles ..... T.-S. Wang, J. Lin, J. Ruf, M. Guidos 899

Table of Contents continued on back cover

A Publication of the American Institute of Aeronautics and Astronautics Devoted to Aerospace Propulsion and Power  
JPPOEL 27(4) 737-928 (2011)  
ISSN 0748-4658

## CONTENTS—continued

## TECHNICAL NOTES

Passing Through the Wind Turbine Thrust Singularity .....	M. J. Werle	908
Performance of $\text{ThO}_2$ -W, $\text{Y}_2\text{O}_3$ -W, and $\text{La}_2\text{O}_3$ -W Cathodes in Quasi-Steady Magnetoplasmadynamic Thrusters .....	D. Nakata, K. Toki, I. Funaki, H. Kuninaka	912
VX-200 Magnetoplasma Thruster Performance Results Exceeding Fifty-Percent Thruster Efficiency .....	B. W. Longmier, L. D. Cassady, M. G. Ballenger, M. D. Carter, F. R. Chang-Díaz, T. W. Glover, A. V. Ilin, G. E. McCaskill, C. S. Olsen, J. P. Squire, E. A. Bering III	915
Chugging Instability of $\text{H}_2\text{O}_2$ Monopropellant Thrusters with Catalyst Reactivity and Support Sizes .....	S. Jo, D. Jang, S. An, S. Kwon	920
Effect of Air Injection Configuration on Characteristics of Effervescent Sprays .....	H. P. Gadgil and B. N. Raghunandan	925

## Eleven Seconds into the Unknown: A History of the Hyper-X Program

Curtis Peebles

Library of Flight  
2011, 1st Edition, 342 pages, Paperback  
ISBN: 978-1-60086-776-7

**AIAA Member Price: \$29.95**

List Price: \$39.95

## Eleven Seconds into the Unknown: A History of the Hyper-X Program

*Eleven Seconds into the Unknown: A History of the Hyper-X Program* is a sequel to the author's first book on the X-43A/Hyper-X project, *Road to Mach 10: Lessons Learned from the X-43A Flight Research Program*.

The Hyper-X program involved the efforts of numerous governmental and commercial organizations, each with its own culture, experience, and tradition. A central theme of the Hyper-X story is how these disparate groups and organizations became a unified team working toward a common goal. Making the team's task more difficult were the technological, political, and funding challenges during nearly fifty years of scramjet development.

*Eleven Seconds into the Unknown: A History of the Hyper-X Program* addresses these issues in compelling fashion, and will appeal to anyone interested in high-speed flight, aerospace history, the organization and management of technological projects, and the future of spaceflight.
