# Weather and Forecasting

## Contents

Vol. 26, No. 3, June 2011

### ARTICLES

- Intraseasonal Forecasting of the 2009 Summer and Winter Australian Heat Waves Using POAMA ..... D. HUDSON, A. G. MARSHALL, AND O. ALVES 257-279
- Favorable Conditions for the Development of a Heavy Rainfall Event over Oahu during the 2006 Wet Period ..... CHUAN-CHI TU AND YI-LENG CHEN 280-300
- A Diagnostic Examination of the Eastern Ontario and Western Quebec Wintertime Convection Event of 28 January 2010 ..... SHAWN M. MILRAD, JOHN R. GYAKUM, EYAD H. ATALLAH, AND JENNIFER F. SMITH 301-318
- Improving Probabilistic Ensemble Forecasts of Convection through the Application of QPF-POP Relationships ..... CHRISTOPHER J. SCHAFER, WILLIAM A. GALLUS JR., AND MOTI SEGAL 319-336
- Association Rule Data Mining Applications for Atlantic Tropical Cyclone Intensity Changes ..... RUIXIN YANG, JIANG TANG, AND DONGLIAN SUN 337-353
- Bias Correction and Forecast Skill of NCEP GFS Ensemble Week-1 and Week-2 Precipitation, 2-m Surface Air Temperature, and Soil Moisture Forecasts ..... YUN FAN AND HUUG VAN DEN DOOL 355-370
- Impacts of Sea Surface Temperature Uncertainty on the Western North Pacific Subtropical High (WNPSH) and Rainfall ..... XIAODONG HONG, CRAIG H. BISHOP, TEDDY HOLT, AND LARRY O'NEILL 371-387
- TIGGE: Comparison of the Prediction of Southern Hemisphere Extratropical Cyclones by Different Ensemble Prediction Systems ..... LIZZIE S. R. FROUDE 388-398
- Automated Lightning Flash Detection in Nighttime Visible Satellite Data ..... RICHARD L. BANKERT, JEREMY E. SOLBRIG, THOMAS F. LEE, AND STEVEN D. MILLER 399-408
- Spatial Forecast Verification: Baddeley's Delta Metric Applied to the ICP Test Cases ..... ERIC GILLELAND 409-415
- GPCE-AX: An Anisotropic Extension to the Goerss Predicted Consensus Error in Tropical Cyclone Track Forecasts ..... JAMES A. HANSEN, JAMES S. GOERSS, AND CHARLES SAMPSON 416-422
