

**p.13**

Maersk Line's new Triple-E container ship is expected to produce the lowest amount of CO<sub>2</sub> emissions in a vessel of its type

## Features

### Emissions

#### Big economy box

Maersk is proving that going green makes good financial sense. The company's new Triple-E vessel will be the world's largest and most efficient container ship

**p. 13**

### Middle East

#### Turning up the gas

The Middle East contains about 40% of the world's gas reserves

**p. 16**

### Piracy

#### Piracy: The next phase

Possible increased military force and retaliatory executions of hostages at sea

**p.18**

### Propulsion

#### Durable drives

A look at Konrad Marine's 600 stern drive series

**p. 24**

### Noise Control

#### Give your ship the silent treatment

Lowering ship noise could lead to fuel savings

**p.27**

### Finance

#### Improve your cash flow by leasing your vessels

Mark Volk of Chase Equipment Finance writes about the benefits of tapping into existing sources of liquidity

**p. 30**
