

Environmental regulatory pressure is heating up as the industry turns over a new leaf. Are you ready to go green?

## Features

### Bourbon

#### Bourbon innovates to the top

With an order of six seismic vessels from Grandweld in place, Bourbon is one step closer to its goal of a 600 OSV fleet

p.16

### LNG

#### LNG as a fuel: Is the industry ready?

Using LNG as the primary fuel may be the solution to the strict ECA requirements

p. 17

### Propulsion

#### Maximizing efficiency: CRP propulsors

CRP technology divides the propulsive load between two propellers and torque between two gearwheels

p.22
