

Contents

Hydrodynamics

- Numerical simulation on the process of supercavity development and the planing state of supercavitating vehicle.....ZHOU Jing-jun YU Kai-ping ZHANG Guang(199)
- Level set method for simulation of cavitating flows
.....HUANG Biao WANG Guo-yu ZHANG Min-di CHEN Wei-qing(207)
- Optimal thrust allocation based on fuel-efficiency for dynamic positioning system
.....YANG Shi-zhi WANG Lei ZHANG Shen(217)
- Investigation on sloshing effects of tank liquid on the FLNG vessel responses in frequency domain
.....ZHAO Wen-hua HU Zhi-qiang YANG Jian-min WEI Yu-feng(227)
- Performance comparisons of vortex-induced vibration suppression devices for top tensioned riser
.....LI Xiao-ming GUO Hai-yan ZHANG Yong-bo LIU Xiao-chun(238)
- Vortex-induced vibration analysis of steel catenary riser
.....RAO Zhi-biao FU Shi-xiao YANG Jian-min(245)

Structural mechanics

- Influence of liquid cargo in tank on crashworthiness of double-skin side structure
.....CUI Jie ZHANG A-man YAO Xiong-liang YANG Shu-tao(259)
- Comparative studies of the transverse structure design wave loads for a trimaran by model tests and rule calculations
.....WANG Xue-liang HU Jia-jun GU Xue-kang GENG Yan-chao XU Chun(269)
- A comparison of different rules for the spherical pressure hull of deep manned submersibles
.....PAN Bin-bin CUI Wei-cheng(276)
- On implementing a practical algorithm to generate fatigue loading history or spectrum from short time measurement
.....LI Shan-shan HUANG Zhi-bo CUI Wei-cheng(286)
- Effect of hydrostatic pressure on input power flow in submerged ring-stiffened cylindrical shells
.....LIU Zhi-zhong LI Tian-yu ZHU Xiang ZHANG Jun-jie(301)
- Study on operational modal parameters identification of ship structures
.....JIANG Da-zheng HONG Ming ZHOU Li(313)
