INFORMATION FOR CONTRIBUTORS

Manuscripts for the *Journal of Hydrometeorology* should be submitted electronically to http://www.ametsoc.org/au_upload. Hydrometeorology. Submissions, American Meteorological Society, 45 Beacon St., Boston, MA 02108-3693. General questions about the *Journal of Hydrometeorology* should be addressed to the Chief Editor (tel: 919-660-5539; fax: 919-660-5219; e-mail: barros@duke.edu). Upon submission the author must state in the cover letter whether the paper has been previously published in any language or if it is under consideration for publication by another journal. Authors may be members or nonmembers of the American Meteorological Society and may be of any nationality, but only manuscript in the English language can be accepted.

Each manuscript should be accompanied by a statement transferring copyright from the authors (or other holder of the copyright) to the American Meteorological Society. The appropriate form for the transfer of the copyright to AMS is available on the AMS Web site and appears in the back of the January and/or December issues of AMS journals. The written, signed transfer of the copyright is required under U.S. Copyright Law

(Title 17 USC, as revised by P.L. 94-553) in order for AMS to have valid rights to continue its wide dissemination of research results and other scientific information. Editorial action on a manuscript that is not accompanied by the completed copyright transfer form, signed by all authors, will be delayed until the form is received.

Two departments are maintained in the journal: *Articles* and *Correspondence*. Correspondence is intended for informal comment and discussion of published papers and will be published at the discretion of the editors.

Authors' institutions are requested to pay a publication charge, which, if honored, entitles them to a pdf file of the final published paper. The rate is \$140.00 per page. Reprint order blanks will be furnished by the Society. Additional information for authors on the preparation and submission of manuscripts is contained in the *AMS Authors' Guide* available at the AMS Web site (http://www.ametsoc.org/pubs/ag_docs/ag_mainpage.html).
