<b>Editorial</b>	259
<b>Capacitor energising transient limiter for mitigating capacitor switch-on transients</b> S.-T. Tseng and J.-F. Chen	260
<b>Measurement method for online battery early faults precaution in uninterrupted power supply system</b> J.-C. Hwang, J.-C. Chen, J.-S. Pan and Y.-C. Huang	267
<b>Improved predictive current control for unbalanced stand-alone doubly-fed induction generator-based wind power systems</b> V.-T. Phan and H.-H. Lee	275
<b>Mono inverter multi-parallel permanent magnet synchronous motor: structure and control strategy</b> D. Bidart, M. Pietrzak-David, P. Maussion and M. Fadel	288
<b>Adaptive supervisory Gaussian-cerebellar model articulation controller for direct torque control induction motor drive</b> S.-Y. Wang, C.-L. Tseng and C.-C. Yeh	295
<b>Operating points estimation of three-phase induction machines using a torque-speed tracking technique</b> A. Jaramillo-Matta, L. Guasch-Pesquer, L. Martinez-Salamero and J.A. Barrado-Rodrigo	307
<b>Design of high-torque-density double-stator permanent magnet brushless motors</b> Y. Wang, M. Cheng, M. Chen, Y. Du and K.T. Chau	317
