

contents

April 2012, Vol 46, No 518

Features

- 18 VDR**
Once seen as too costly to install, the maritime 'black box' has come of age
- 28 Medical and health**
Why cooks' qualifications, seafarer diet and food hygiene are all on the menu
- 34 Container ship safety**
How the industry has reacted to a spate of deadly refrigerated container explosions

Regulars

- 4 Our say**
When it comes to powers of retention, a VDR is only as good as its operator
- 5 Your say**
Following the *Concordia* disaster, readers set their minds to architectural solutions
- 6 News**
Enrica Lexie shootings; *Costa Allegra* towed to safety; *Rabaul Queen* sinking
- 14 Security news**
African states sign maritime crime MoU; box-scanning problems; Danube crime rise
- 16 Training news**
ECDIS training in focus; new armed guard course on offer; engine ratings record book
- 39 Using SAS on board**
Why Campbell Shipping makes SAS a part of its safety management system

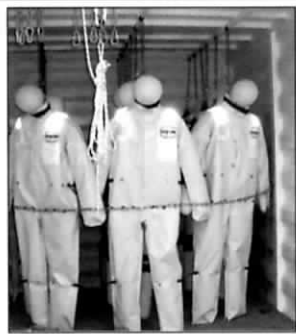

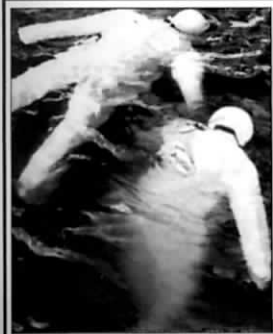

- 40 Regulation insight**
MSC 88 modifications come into force in July – but what exactly do they change?
- 41 Products**
A smaller, lighter new broadband system and a razor-sharp anti-boarding device
- 42 Safety briefing**
A container crush, a gangway fall and a cargo release for crews to consider
- 44 Mars**
How some hot work led to a workshop fire
- 50 View astern**
Broad support for GAC's endeavours

Safety at Sea on the cover

Stranded in Seychelles

Passengers from *Costa Allegra* search for their baggage after arriving at Port Victoria in the Seychelles on 1 March. The cruise ship had to be towed to the port after a fire broke out in the generator room on 27 February, leaving the vessel without power. The full story can be found on page 7
