**Special Issue: Selected Papers from AST 2010**

Preface – Selected Papers from AST 2010	507
Using an integrated ontology database to categorize web pages <i>Rujiang Bai and Xiaoyue Wang</i>	509
A framework for smart workflow services in agricultural environments <i>Yong-Yun Cho, Jong-Sun Choi and Hyun Yoe</i>	515
A method of data hiding in audio signal <i>Debnath Bhattacharyya, Tai-hoon Kim and Poulami Dutta</i>	523
Probabilistic approach to face recognition <i>Dakshina Ranjan Kisku, Phalguni Gupta, Jamuna Kanta Sing and Massimo Tistarelli</i>	529
Design of context-aware middleware for mobile healthcare services <i>Jae-gu Song, Sungmo Jung, Byeong Ho Kang, Dae-Joon Hwang and Seoksoo Kim</i>	535
Mining highly correlated least association rules using scalable trie-based algorithm <i>Zailani Abdullah, Tutut Herawan and Mustafa Mat Deris</i>	547

**Regular Papers**

Improving Mobile IP handoff by recorded neighbor information <i>Po-Jen Chuang, Chi-Hua Hsieh and Chih-Shin Lin</i>	555
A load-balanced routing method for large-scale mesh multiprocessors <i>Tsung Lee and Miao-Ying Lin</i>	567
Micro-explosion of a water-in-hexadecane compound drop <i>Wei-Dong Hsieh, Rong-Horng Chen, Cheng-Wen Chen, Sheng-Lin Chiu and Ta-Hui Lin</i>	579
Design of PDMS microlenses bonded to a lab-CD chip for ELISA applications <i>Ju-Nan Kuo, Chi-Han Chiou and Wen-Wai Lee</i>	589
All-polymer variable resistors as pressure-responsive devices photochemically assembled using porous composites and flexible electrodes based on conducting polymers <i>Pen-Cheng Wang, Chen-I Chao, Wei-Keng Lin and Sz-Yuan Hung</i>	595
Analysis of deep excavations in clay under the undrained and plane strain condition with small strain characteristics <i>Pio-Go Hsieh and Chang-Yu Ou</i>	601
