

ORIGINAL ARTICLES
Fisheries

Improving the effectiveness of escape windows in directed Norway lobster *Nephrops norvegicus* trawl fisheries

Niels Madsen, René Holst, Rikke Petri Frandsen and Ludvig A. Krag 965

Effect of a stepwise lighting method termed "stage reduced lighting" using LED and metal halide fishing lamps in the Japanese common squid jiggling fishery

Yoshiaki Matsushita and Yukiko Yamashita 977

Biology

Molecular characterization and expression analysis of two Na⁺/H⁺ antiporter genes in the marine red alga *Porphyra yezoensis*

Toshiki Uji, Ryota Monma, Hiroyuki Mizuta and Naotsune Saga 985

Culture method and growth characteristics of marine benthic dinoflagellate *Ostreopsis* spp. isolated from Japanese coastal waters

Haruo Yamaguchi, Yuko Tanimoto, Takamichi Yoshimatsu, Shinya Sato, Tomohiro Nishimura, Keita Uehara and Masao Adachi 993

Daily growth rate model of Japanese anchovy larvae *Engraulis japonicus* in Hiuchi-nada Sea, central Seto Inland Sea

Hiromu Zenitani and Naoaki Kono 1001

Effect of low dissolved oxygen on the oxygen consumption rate and rhythm of the mudskipper *Scartelaos gigas* (Pisces, Gobiidae)

Jung-Ah Lee, Jong-Wook Kim, Sung-Yong Oh, Soon-Kil Yi, Il Noh, Atsushi Ishimatsu and Wan-Soo Kim 1013

Sr isotopic compositions of ayu otolith and its ambient water

Hiroshi Amakawa, Takafumi Suzuki, Toshiro Takahashi, Yoshiyuki Tatsumi and Tsuguo Otake 1023

Complete nucleotide sequences of mitochondrial DNA of long-finned squid *Loligo edulis*

Kenji Takemoto and Michiaki Yamashita 1031

Aquaculture

Global gene expression analysis of gill tissues from normal and thermally selected strains of rainbow trout

Engkong Tan, Chaninya Wongwarangkana, Shigeharu Kinoshita, Yutaka Suzuki, Kenshiro Oshima, Masahira Hattori, Toshinao Ineno, Koichi Tamaki, Akio Kera, Koji Muto, Takashi Yada, Shoji Kitamura, Shuichi Asakawa and Shugo Watabe 1041

Differential expression of heat-shock proteins in F2 offspring from F1 hybrids produced between thermally selected and normal rainbow trout strains

Nobuhiko Ojima, Miyuki Mekuchi, Toshinao Ineno, Koichi Tamaki, Akio Kera, Shigeharu Kinoshita, Shuichi Asakawa and Shugo Watabe 1051

Method for efficiently obtaining fertilized eggs from the black scraper *Thamnaconus modestus* by natural spawning in captivity

Kaori Mizuno, Sonoko Shimizu-Yamaguchi, Chiemi Miura and Takeshi Miura 1059

Antibacterial benzaldehydes produced by seaweed-derived *Streptomyces atrovirens* PK288-21

Ji Young Cho and Myoung Sug Kim 1065

Response of cholecystokinin and digestive enzyme mRNA levels to various feed ingredients in yellowtail *Seriola quinqueradiata*

Takahiro Furutani, Toshiro Masumoto and Haruhisa Fukada 1075

Environment

Influence of volcanic ash sediments on spore adhesion of the red alga *Gelidium elegans* from the coastal seabed around Miyakejima Island, Japan

Hisayuki Arakawa, Yohei Ohi, Akira Matsumoto, Kenji Takio, Takumi Kimoto and Katsutoshi Kawabe 1083

Phytoplankton surveys off the southern Myanmar coast of the Andaman Sea: an emphasis on dinoflagellates including potentially harmful species

Su-Myat, Maung-Saw-Htoo-Thaw, Kazumi Matsuoka, Khin-Ko-Lay and Kazuhiko Koike 1091

Chemistry and Biochemistry

Purification and biochemical characterization of a cellulase from the digestive organs of the short-spined sea urchin *Strongylocentrotus intermedius*

Syuto Hasegawa, Kazuhiro Ura, Hiroyuki Tanaka, Takao Ojima and Yasuaki Takagi 1107

Food Science and Technology

Simple freezing and thawing protocol for long-term storage of harvested fresh *Undaria pinnatifida*

Jae-Suk Choi, Bo-Bae Lee, Sun Ju An, Jae Hak Sohn, Kwang Keun Cho and In Soon Choi 1117

Molecular bacterial characterization and free amino acids composition in Ivorian traditional fermented fish produced by two methods

Amenan Clémentine Kouakou, Kouadio Florent N'Guessan, Noël Durand, Dadie A. Thomas, Didier Montet and Marcellin Koffi Djé 1125

Relationship between the water molecules in fish-meat gel and the gel structure

Lujia Luo, Yuri Tashiro and Hiroo Ogawa 1137

Social Science

Estimating the economic damage caused by jellyfish to fisheries in Korea

Do-Hoon Kim, Ju-Nam Seo, Won-Duk Yoon and Young-Sang Suh 1147
