

CONTENTS

4th ACF International Conference

Effective ASR Inhibiting Length and Applied Electrical Field under Accelerated Lithium Migration Technique Wei-Chien Wang, Chih-Chien Liu, and Chau Lee	245
Impact Abrasion of Hydraulic Structures Concrete Yu-Wen Liu, Shi-Wei Cho, and Tsao-Hua Hsu	253
Prediction Model of Air-Borne Salt Distribution in the Coastal Region of Northern Taiwan..... Yu-Sheng Chen, Hui-Jen Chiu, Yi-Wen Chan, Yung-Chang Chang, and Chung-Chia Yang	259
Using Mercury Intrusion Porosimetry to Study the Interfacial Properties of Cement-Based Materials Shih-Wei Cho	269
Mechanical Properties of Recycled Aggregate Concrete with Deformed Steel Re-Bar..... Yongjae Kim, Jongsung Sim, and Cheolwoo Park	274
The Relationship between Migration Time in ACMT and Ponding Time in Ponding Test for Cementitious Materials Chung-Chia Yang, Yu-Ming Tsai, and Kuo-Cheng Yang	281
The Study of Chloride Ion Transport Behavior of Mortar under Different Storing Environment Temperatures Shih-Han Weng, Chung-Chia Yang, Shih-Wei Cho, and Kuo-Cheng Yang	290
Effect of Water Soluble Polymer and Fiber on the Early-Age Shrinkage Cracking of Cementitious Composites Shih-Tang Lin, Ran Huang, and Tsai-Lung Weng	295
Performance-Based Plastic Design and Energy-Based Evaluation of Seismic Resistant RC Moment Frame Wen-Cheng Liao and Subhash C. Goel	304
Effect of Alkaline Solutions on Engineering Properties of Alkali-Activated GGBFS Paste Tzong-Ruey Yang, Ta-Peng Chang, Bo-Tsun Chen, Jeng-Ywan Shih, and Wei-Lun Lin	311
Effect of Ground Granulated Blast Furnace Slag on Mechanical Behavior of PVA-ECC Ing Lim, Jenn-Chuan Chern, Tony Liu, and Yin-Wen Chan	319
A Study of Statistical Models Application for Mixture of High-Flowing Concrete..... Ming-Chih Li, Yu-Sheng Chen, Yin-Wen Chan, and Vihn Long Hoang	325
Analysis of Influential Factors and Association Rules for Bridge Deck Deterioration with Utilization of National Bridge Inventory Rong Yau Huang and Ping Fu Chen	336
