

## CONTENTS

### Papers

Technology Forecasting Via Published Patent Applications and Patent Grants .....	
..... Dar-Zen Chen, Chang-Pin Lin, Mu-Hsuan Huang, and Yi-Tung Chan	345
Applying a Two-Step Maximum Likelihood Method to Examine the Deposit Insurance Program of Taiwan	
.....David K. Wang, Chun-Chou Wu, and Heng-Chih Chou	357
Experimental Study of the Electrochromic Properties of WO <sub>3</sub> Thin Films Derived by Electrochemical Method	
.....Chin-Guo Kuo, Chih-Yin Chou, Ya-Chieh Tung, and Jung-Hsuan Chen	365
Fragmentation and Characteristics of Recombinant Endochitinase Expressed in <i>Escherichia coli</i> .....	
..... Wei-Ming Chen, Gen-Hung Chen, and Shann-Tzong Jiang	369
Optimum Design of Mufflers Hybridized with One-Connected Curved Tube Using the Boundary Element Method, Neural Networks, and the Genetic Algorithm .....	
..... Ying-Chun Chang, Min-Chie Chiu, and Ching-Chung Hsieh	376
Study on the Seismic Behavior of Self-Anchored Suspension Bridges .....	
..... Wen-Liang Qiu, Chang-Huan Kou, Chin-Sheng Kao, Shih-Wei Ma, and Jiun Yang	384
An Arc Code to Predict the Thermal Crack of Welded Sample.....	392
Je-Ee Ho	
Rust-Expansion-Crack Service Life Prediction of Existing Reinforced Concrete Bridge/Viaduct Using Time-Dependent Reliability Analysis.....	
.....Ming-Te Liang, Jiang-Jhy Chang, Han-Tung Chang, and Chi-Jang Yeh	397
Fuzzy Statistical Refinement for the Forecasting of Tenders for Roadway Construction.....	
.....Jeng-Wen Lin, Cheng-Wu Chen, and Ting-Chang Hsu	410
Studies of the Effect of Diffusion-Induced Chloride Binding on Chlorination Life Predictions for Existing Reinforced Concrete Bridges.....	
.....Ming-Te Liang, Jiang-Jhy Chang, and Tung-Wei Yu	418
Safety Stock Estimation of Unit Load Devices for International Airline Operations.....	
.....Hua-An Lu and Chien-Yi Chen	431
A Manifold-Based Exponentially Convergent Algorithm for Solving Non-Linear Partial Differential Equations .....	
..... Chein-Shan Liu	441
A Proposal on Standard Rudder Device Design Procedure by Investigation of Rudder Design Process at Major Korean Shipyards.....	
..... Hyun-Jun Kim, Sang-Hyun Kim, Jung-Keun Oh, and Dae-Won Seo	450
Design of Planning Level Ship Product Model for Ship Initial Design .....	
..... Sungchul Shin, Soon-Sup Lee, Jong-Kap Lee, and Kyung-Ho Lee	459
The Freak Wave Potential of Typhoon Swell.....	
.....Nai-Kuang Liang	467
Design and Application of Inter-Satellite Link in Weather Observation Constellation.....	
..... Jeng-Shing Chern, Zuu-Chang Hong, Tsai-Lun Chien, Tzu-You Chen, and Ji-Chien Dai	472
