April 2013, Vol 47, No 530

Features

18 Container ship safety

When *MSC Flaminia* was engulfed by fire, John Rosen was there to witness it all

24 Medical and health

Mental health problems affect many, but seafarers are particularly vulnerable

32 ECDIS

Unravelling the confusion over ECDIS training, from duration to familiarisation

on the cover

Mental health problems represent shipping's hidden health risk, and if the symptoms go unrecognised then the consequences can sometimes be fatal. We examine why seafarers are particularly at risk as a group, and look at what crews can do to protect each other, in our feature beginning **on page 24**

Regulars

4 Our say

Lifeboat accidents are starting to give SAS's managing editor a sense of *déjà vu*

5 Your say

A SAS reader explains why safety is the mantra on everyone's lips
