

# contents

November 2013, Vol 47, No 537

## Features

### 20 Medical and health

Access to telemedicine has improved but greater standardisation is still needed

### 26 Training and crewing

Virtual reality technology will offer a new dimension in maritime simulator training

### 34 Offshore safety

After the *Kulluk* incident, experts are taking a harder look at safety off Alaska's coast

## Regulars

### 4 Our say

Onboard technology must not exceed humanity, says SAS's managing editor

### 5 Your say

Language laws and company standing orders under discussion

### 6 News

Security standards debate; *Concordia* latest; container weighing plan agreed

### 16 Security news

*Gold Star* gets a black mark; Seychelles builds pirate court; Nigerian anti-piracy plan

### 18 Training news

Insurer's standards drive; Seagull modules; UK training boost; Clyde quizzes cadets

### 40 Security insight

Seafarers travelling through the Suez Canal should keep calm and carry on

### 41 Regulation insight

SAS unpacks the implications of the 2011 ESP Code for bulkers and oil tankers

### 42 Safety briefing

A crewman overboard, a fatal explosion and a catastrophic fire to dissect

### 44 MARS

Two seafarers are washed overboard and a deadly fire reignites in this month's reports

### 46 Products

Seafarer insurance policy is off to a FLIER

### 50 View astern

Ships and squatters in Lelystad

## on the cover

Virtual reality could bring a new dimension to the world of maritime training. Thanks to an EU-funded research project into 'serious gaming', seafarers will be able to enter simulations that are more immersive, and hopefully more effective, than ever before. Our coverage begins **on page 26**
