

CONTENTS

Correlation coefficient analysis of original and watermarked dataset for data usability <i>Aihab Khan, Syed Afaq Hussain, Malik Sikander Hayat Khayal and Quratulain</i>	411
Optimal services for content delivery based on business priority <i>Chih-Chin Liang and Hsing Luh</i>	422
Abnormal human activity recognition system based on R-transform and independent component features for elderly healthcare <i>Zafar Ali Khan and Won Sohn</i>	441
Energy dissipation of hydraulic jump in gradually expanding channel after free overfall <i>Jen-Yan Chen, Yuan-Ya Liao and Shi-I Liu</i>	452
Optimal design base shear forces for reinforced concrete buildings considering seismic reliability and life-cycle costs <i>Chien-Kuo Chiu, Wen-Yu Jean and Yu-Tai Chuang</i>	458
Quality of service guarantee for real-time VBR traffic flows with different delay bound and loss probability requirements in WLANs <i>Tsern-Huei Lee and Yu-Wen Huang</i>	471
Dynamics on a ZCZVT soft-switching DC/DC boost converter <i>Sung-Pei Yang and Jong-Lick Lin</i>	488
Autonomous target tracking and following mobile robot <i>Min-Fan Ricky Lee and Kelly Hui-En Lee</i>	502
A vertically intersected dual-axis modularized reconfigurable actuator: design and application for a six-axis humanoid robot arm <i>Ren-Jeng Wang, Han-Pang Huang, Po-Ting Lee and His-Fan Liao</i>	530
The 'IMC rings' growth mechanism in Sn-Ag-Cu solder ball and NiAu-plated BGA ball pad <i>Chun-Hsiung Chen</i>	542
