

CONTENTS

Effects of casing treatment on behavior of tip leakage flow in an isolated axial compressor rotor blade row <i>Reza Taghavi-Zenouz and Siamak Eslami</i>	819
Numerical and experimental investigation of polycarbonate vacuum-forming process <i>Yao-Wen Chang and Jung-Ho Cheng</i>	831
Electromechanical coupling efficiency of transverse vibration in piezoelectric plates according to electrode configuration <i>Yu-Hsi Huang</i>	842
Depth of penetration prediction for closed-cell aluminum foam experiencing impact of different shape projectiles <i>Yu-Liang Chen, Hong-Chang Chen and Bor-Cherng Shen</i>	856
Wind loads on a residential solar water heater <i>Kung-Ming Chung, Chin-Cheng Chou, Keh-Chin Chang and Yi-Jun Chen</i>	870
A multiresolution video watermarking scheme integrated with feature detection <i>Chien-Chuan Ko, Yung-Lung Kuo, Jeng-muh Hsu and Bo-Zhi Yang</i>	878
Automatic inspection of an LCD light-guide plate based on weighted central moments combined with neural networks <i>Tsun-Kuo Lin</i>	890
A beacon-based handover scanning mechanism with QoS support in WiMAX femtocell architecture <i>Shang-Juh Kao, Fu-Min Chang and Hsiu-Lang Wang</i>	902
Effect of geosynthetic inclusion on the bearing ratio of two-layered soil <i>Reza Ziaie Moayed, Moeen Nazari and Farzad Allahyari</i>	914
The horizontal amplitude screening effects of a rectangular strip in-filled trench <i>Chang-Chi Hung and Sheng-Huoo Ni</i>	932
Prediction of silicon dry etching using a piecewise linear algorithm <i>V.M. Jimenez-Fernandez, C. Reyes-Betanzo, M. Angelica-Cerdan, Z.J. Hernandez-Paxtian, H. Vazquez-Leal and A. Itzmoyotl-Toxqui</i>	941
New logarithmic equation of temperature integral for modelling non-isothermal reactions <i>Chen-hua Wang and C.H. Hsu</i>	951
