WORLD OF REPRODUCTIVE BIOLOGY

Biol Reprod May 2014 90 (5) 89, 1-2; doi:10.1095/biolreprod.114.118885

[Full Text](#) [Full Text \(PDF\)](#)**Minireview**

- Mariano G. Buffone, Noritaka Hirohashi, and George L. Gerton
Unresolved Questions Concerning Mammalian Sperm Acrosomal Exocytosis
 Biol Reprod May 2014 90 (5) 112, 1-8; published ahead of print March 26, 2014, doi:10.1095/biolreprod.114.117911
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Author Biosketches](#)

Summary: Unresolved questions concerning acrosomal exocytosis are highlighted; advanced technologies are anticipated to lead to a more complete understanding of the molecular mechanisms governing the fertilization process in mammals.

- Peng Fang, Piao Zeng, Zhaoxia Wang, Miao Liu, Wangjie Xu, Jingbo Dai, Xianglong Zhao, Dong Zhang, Dongli Liang, Xiaohui Chen, Shi Shi, Meixing Zhang, I
Estimated Diversity of Messenger RNAs in Each Murine Spermatozoa and Their Potential Function During Early Zygotic Development
 Biol Reprod May 2014 90 (5) 94, 1-11; published ahead of print March 26, 2014, doi:10.1095/biolreprod.114.117788
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** The number of transcripts reserved in each mouse sperm is estimated, and evidence of paternal effect on zygotic development is evidenced by translation of sperm-delivered *Wnt4* mRNA in the zygote.
- Andrew D. Cutting, Katie Ayers, Nadia Davidson, Alicia Oshlack, Tim Doran, Andrew H. Sinclair, Mark Tizard, and Craig A. Smith
Identification, Expression, and Regulation of Anti-Müllerian Hormone Type-II Receptor in the Embryonic Chicken Gonad
 Biol Reprod May 2014 90 (5) 106, 1-12; published ahead of print March 12, 2014, doi:10.1095/biolreprod.113.116491
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)
- Summary:** The AMH type-II receptor is expressed in male and female embryonic chicken gonads and is regulated by DMRT1 and inhibited by aromatase during gonadal sex differentiation.
- Seung-Bin Yoon, Seon-A Choi, Bo-Woong Sim, Ji-Su Kim, Seong-Eun Mun, Pil-Soo Jeong, Hae-Jun Yang, Youngjeon Lee, Young-Ho Park, Bong-Seok Song, Yi
Developmental Competence of Bovine Early Embryos Depends on the Coupled Response Between Oxidative and Endoplasmic Reticulum Stress
 Biol Reprod May 2014 90 (5) 104, 1-10; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.113480
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** The reduction of oxidative stress enhances in vitro developmental competence of bovine early embryos through amelioration of endoplasmic reticulum stress.

Toll-Like Receptor 4 Regulates Lipopolysaccharide-Induced Inflammation and Lactation Insufficiency in a Mouse Model of Mastitis
 Biol Reprod May 2014 90 (5) 91, 1-11; published ahead of print March 26, 2014, doi:10.1095/biolreprod.114.117663
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)
- Summary:** Null mutation in toll-like receptor 4 affects local and systemic inflammation and lactation in a mouse model of lactation mastitis.
- Subramanian Muthukumar, Ramalingam Rajkumar, Kandasamy Karthikeyan, Chen-Chung Liao, Dheer Singh, Mohammad Abdulkader Akbarsha, and Govindar
Buffalo Cervico-Vaginal Fluid Proteomics with Special Reference to Estrous Cycle: Heat Shock Protein (Hsp)-70 Appears to Be an

Estrus Indicator

Biol Reprod May 2014 90 (5) 97, 1-8; published ahead of print March 12, 2014, doi:10.1095/biolreprod.113.113852

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)

Summary: The proteins in the buffalo cervico-vaginal fluid have been identified during estrous cycle with heat shock protein-70, in particular, as an indicator of estrus.

- Heewon Seo, Yohan Choi, Jangsoo Shim, Inkyu Yoo, and Hakhyun Ka
Comprehensive Analysis of Prostaglandin Metabolic Enzyme Expression During Pregnancy and the Characterization of AKR1B1 as a Prostaglandin F Synthase at the Maternal-Conceptus Interface in Pigs
Biol Reprod May 2014 90 (5) 99, 1-13; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.114926
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)
- Summary:** Prostaglandin metabolic enzymes dynamically expressed in the uterine endometrium during pregnancy regulate prostaglandin synthesis at the maternal-conceptus interface, and AKR1B1 acts as a prostaglandin F synthase during early pregnancy in pigs.
- Heewon Seo, Yohan Choi, Jangsoo Shim, Inkyu Yoo, and Hakhyun Ka
Prostaglandin Transporters ABCC4 and SLCO2A1 in the Uterine Endometrium and Conceptus During Pregnancy in Pigs
Biol Reprod May 2014 90 (5) 100, 1-10; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.114934
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)
- Summary:** Prostaglandin transporters, ABCC4 and SLCO2A1, are expressed in the uterus during pregnancy in pigs.
- Koryu Kin, Jamie Maziarz, and Günter P. Wagner
Immunohistological Study of the Endometrial Stromal Fibroblasts in the Opossum, *Monodelphis domestica*: Evidence for Homology with Eutherian Stromal Fibroblasts
Biol Reprod May 2014 90 (5) 111, 1-12; published ahead of print April 16, 2014, doi:10.1095/biolreprod.113.115139
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Fibroblasts in the marsupial endometrial stroma are homologous to eutherian stromal fibroblasts, while decidual stromal cells represent a true eutherian evolutionary novelty.

[Clear](#) [Get All Checked Abstracts](#)

Gamete Biology

- Rita Reig-Viader, Marta Vila-Cejudo, Valerio Vitelli, Rafael Buscà, Montserrat Sabaté, Elena Giulotto, Montserrat Garcia Caldés, and Aurora Ruiz-Herrera
Telomeric Repeat-Containing RNA (TERRA) and Telomerase Are Components of Telomeres During Mammalian Gametogenesis
Biol Reprod May 2014 90 (5) 103, 1-13; published ahead of print April 9, 2014, doi:10.1095/biolreprod.113.116954
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** TERRA and telomerase are integral elements of germ cell telomeres and contribute to maintain the stability of the telomeric structure during gametogenesis.
- Wenxian Tan and Peter Thomas
Activation of the Pi3k/Akt Pathway and Modulation of Phosphodiesterase Activity via Membrane Progesterin Receptor-Alpha (mPRalpha) Regulate Progesterin-Initiated Sperm Hypermotility in Atlantic Croaker
Biol Reprod May 2014 90 (5) 105, 1-11; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.112896
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Progesterin signaling through membrane progesterin receptor-alpha initiates sperm hypermotility in the Atlantic croaker by activating the Pi3k/Akt pathway and modulating phosphodiesterase activity.
- Alberto Vicens and Eduardo R.S. Roldan
Coevolution of Positively Selected IZUMO1 and CD9 in Rodents: Evidence of Interaction Between Gamete Fusion Proteins?
Biol Reprod May 2014 90 (5) 113, 1-9; published ahead of print March 26, 2014, doi:10.1095/biolreprod.113.116871
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Correlated evolution between extracellular domains of IZUMO1 and CD9 has been found, suggesting that they could undergo specific molecular interactions.

[Clear](#) [Get All Checked Abstracts](#)

Male Reproductive Tract

- Winnie W. Shum, Tegan B. Smith, Virma Cortez-Retamozo, Lubov S. Grigoryeva, Jeremy W. Roy, Eric Hill, Mikael J. Pittet, Sylvie Breton, and Nicolas Da Silv
Epithelial Basal Cells Are Distinct from Dendritic Cells and Macrophages in the Mouse Epididymis
 Biol Reprod May 2014 90 (5) 90, 1-10; published ahead of print March 19, 2014, doi:10.1095/biolreprod.113.116681
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** The basal region of the murine epididymal duct is heavily populated by basal cells, macrophages, and dendritic cells, which are morphologically and phenotypically distinct.
- Shasha Zou, Zheng Li, Yanan Wang, Tingting Chen, Pingping Song, Jianhua Chen, XiaoJin He, Peng Xu, Ming Liang, Kailing Luo, Xiaobin Zhu, Erpo Tian, Qiar
Association Study Between Polymorphisms of PRMT6, PEX10, SOX5, and Nonobstructive Azoospermia in the Han Chinese Population
 Biol Reprod May 2014 90 (5) 96, 1-4; published ahead of print March 19, 2014, doi:10.1095/biolreprod.113.116541
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Association studies support the *SOX5* polymorphism rs10842262 but not rs12097821 and rs2477686 as associated with nonobstructive azoospermia in the Han Chinese population.

Ovary

- Maxime Reverchon, Michael J. Bertoldo, Christelle Ramé, Pascal Froment, and Joëlle Dupont
CHEMERIN (RARRES2) Decreases In Vitro Granulosa Cell Steroidogenesis and Blocks Oocyte Meiotic Progression in Bovine Species
 Biol Reprod May 2014 90 (5) 102, 1-15; published ahead of print March 26, 2014, doi:10.1095/biolreprod.113.117044
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Figures S1-S2](#)
- Summary:** The chemerin adipokine is produced by ovarian follicular cells, it decreases in vitro bovine granulosa cell steroidogenesis and de novo cholesterol synthesis, and arrests at germinal vesicle stage bovine oocyte during in vitro maturation.

[Clear](#) [Get All Checked Abstracts](#)

Pregnancy

- Kohzoh Mitsuya, Natasha Singh, Suren R. Sooranna, Mark R. Johnson, and Leslie Myatt
Epigenetics of Human Myometrium: DNA Methylation of Genes Encoding Contraction-Associated Proteins in Term and Preterm Labor
 Biol Reprod May 2014 90 (5) 98, 1-8; published ahead of print February 26, 2014, doi:10.1095/biolreprod.113.113209
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Differential DNA methylation was found in the 5'-regions of contraction-associated genes between women with term labor versus preterm labor.
- Katarzyna Biadasiewicz, Valerie Fock, Sabine Dekan, Katharina Proestling, Philipp Velicky, Sandra Haider, Martin Knöfler, Camilla Fröhlich, and Jürgen Pollhe
Extravillous Trophoblast-Associated ADAM12 Exerts Pro-Invasive Properties, Including Induction of Integrin Beta 1-Mediated Cellular Spreading
 Biol Reprod May 2014 90 (5) 101, 1-10; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.115279
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Figures S1-S6](#)
- Summary:** ADAM12, which is expressed by invasive extravillous trophoblasts, processes insulin-like growth factor binding protein 3 and impacts on trophoblast invasion, as well as integrin beta 1-mediated cellular spreading.
- Meghan E. Bushway, Scott A. Gerber, Bruce M. Fenton, Richard K. Miller, Edith M. Lord, and Shawn P. Murphy
Morphological and Phenotypic Analyses of the Human Placenta Using Whole Mount Immunofluorescence
 Biol Reprod May 2014 90 (5) 110, 1-10; published ahead of print March 19, 2014, doi:10.1095/biolreprod.113.115915
[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)
- Summary:** Early human placental blood vessels express high levels of the pro-angiogenic receptors VEGFR2 and VEGFR3, and the activated transcription factor pSTAT3, which suggests that these molecules play a role in regulation of placental vascular development.

Generation of Transgenic Pigs by Cytoplasmic Injection of *pfpiggyBac* Transposase-Based *pmGENIE-3* Plasmids

Biol Reprod May 2014 90 (5) 93, 1-10; published ahead of print March 26, 2014, doi:10.1095/biolreprod.113.116905

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)

Summary: The production of transgenic pigs by cytoplasmic injection of *pfpiggyBac*-based *pmGENIE-3* plasmids into in vivo-produced one cell zygotes results in efficient transgenesis rates; at least one transgenic piglet was born every time a sow farrowed.

- Li Wang, Xiaohong Wang, Jianguang Zhang, Zhuo Song, Shufang Wang, Yang Gao, Jun Wang, Yaning Luo, Ziru Niu, Xiaojing Yue, Genming Xu, David S. Crai
Detection of Chromosomal Aneuploidy in Human Preimplantation Embryos by Next-Generation Sequencing

Biol Reprod May 2014 90 (5) 95, 1-6; published ahead of print March 19, 2014, doi:10.1095/biolreprod.113.116459

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)

Summary: Next-generation sequencing is highly sensitive and specific for detecting clinically significant aneuploidy in preimplantation embryos.

Developmental Expression of Musashi-1 and Musashi-2 RNA-Binding Proteins During Spermatogenesis: Analysis of the Deleterious Effects of Dysregulated Expression

Biol Reprod May 2014 90 (5) 92, 1-12; published ahead of print March 26, 2014, doi:10.1095/biolreprod.113.115261

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Data](#)

Summary: Regulated expression of the Musashi family of RNA-binding proteins is essential for the appropriate differentiation and progression of spermatogenic cells during spermatogenesis.

- Vicente Seco-Rovira, Esther Beltrán-Frutos, Concepción Ferrer, Francisco José Sáez, Juan Francisco Madrid, and Luis Miguel Pastor
The Death of Sertoli Cells and the Capacity to Phagocytize Elongated Spermatids During Testicular Regression due to Short Photoperiod in Syrian Hamster (*Mesocricetus auratus*)

Biol Reprod May 2014 90 (5) 107, 1-10; published ahead of print April 9, 2014, doi:10.1095/biolreprod.113.112649

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)

Summary: Death of Sertoli cells and elongated spermatids by Sertoli cells occurs during seminiferous tubule regression due to short photoperiod in the Syrian hamster.

- Elizabeth Evans, Cathryn Hogarth, Debra Mitchell, and Michael Griswold
Riding the Spermatogenic Wave: Profiling Gene Expression Within Neonatal Germ and Sertoli Cells During a Synchronized Initial Wave of Spermatogenesis in Mice

Biol Reprod May 2014 90 (5) 108, 1-12; published ahead of print April 9, 2014, doi:10.1095/biolreprod.114.118034

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#) [Supplemental Tables S1-S5](#)

Summary: WIN 18,446/RA treatment of neonatal mice was used to synchronize the initial wave of spermatogenesis and identify novel messages expressed within either germ or Sertoli cells as spermatogonia enter meiosis.

- Gurvinder Kaur, Lea Ann Thompson, Mithun Pasham, Kim Tessanne, Charles R. Long, and Jannette M. Dufour
Sustained Expression of Insulin by a Genetically Engineered Sertoli Cell Line after Allotransplantation in Diabetic BALB/c Mice

Biol Reprod May 2014 90 (5) 109, 1-8; published ahead of print April 2, 2014, doi:10.1095/biolreprod.113.115600

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)

Summary: A mouse Sertoli cell line (MSC-1) genetically engineered using a lentiviral construct carrying furin-modified human proinsulin cDNA stably expresses insulin mRNA and protein and survives allotransplantation into diabetic BALB/c mice.

- Trish Berger and Alan Conley
Reduced Endogenous Estrogen and Hemicastration Interact Synergistically to Increase Porcine Sertoli Cell Proliferation

Biol Reprod May 2014 90 (5) 114, 1-8; published ahead of print April 16, 2014, doi:10.1095/biolreprod.114.117770

[Abstract](#) [Full Text](#) [Full Text \(PDF\)](#)

Summary: Increased Sertoli cell proliferation following reduced endogenous estradiol and following hemicastration have different time scales and likely involve different mechanisms.
