26

## Features

### 16 Navigation and bridge

Decision-support tools can save navigators from disaster but only if used correctly

### 22 New equipment review

From lifejackets to anti-piracy devices, safety equipment never stops developing

### 26 Communications

SAS asks if current search and rescue infrastructure is effective enough

## on the cover

With increasing numbers of vessels operating in remote areas of the world, SAS examines whether global communications coverage and search and rescue infrastructure is up to the job of saving seafarers, and asks the experts what can improve the situation. For the answers, turn to our report **on page 26**

## Regulars

### 4 Our say

SAS's managing editor examines the essence of safety, and bids farewell

### 5 Your say

As a regulation MLC 2006 has neither teeth nor claws, complains a chief officer
