

Volume 19, Issue 3, June 2014

ISSN: 1007-1172 (Print) 1995-8188 (Online)

In this issue

(16 articles)

 OriginalPaper

Topology-based quantitative assessment of structural robustness

Yang Gao 高扬, Xi-la Liu 刘西拉

Look Inside
Get Access

Pages 257-264

 OriginalPaper

Development of the large increment method in analysis for thin and moderately thick plates

Hong-xue Jia 贾红学, Dan-bing Long 龙丹冰...

Look Inside
Get Access

Pages 265-273

 OriginalPaper

Analysis of epimetamorphic rock slopes using soft computing

Manoj Kumar, Pijush Samui

Look Inside
Get Access

Pages 274-278

 OriginalPaper

Distributed cooperative coverage of mobile robots with consensus-based connectivity estimation

Xiao-li Li 李晓丽, Shu-guang Zhao 赵曙光...

Look Inside
Get Access

Pages 279-286

 OriginalPaper

Stochastic optimization in cooperative relay networks for revenue maximization

Hong-fang Lü 吕红芳, Hao Zhang 张浩

Look Inside
Get Access

Pages 287-293

 OriginalPaper

Simulation platform for the underwater snake-like robot swimming based on Kane's dynamic model and central pattern generator

Ke Yang 杨柯, Xu-yang Wang 王旭阳, Tong Ge 葛彤...

Look Inside
Get Access

Pages 294-301

 OriginalPaper

Calculation of 3D sensitivity matrix for electromagnetic tomography system using boundary elements and the perturbative approach

Min He 何敏, Qian Zhao 赵倩, Wu-liang Yin 尹武良

- - - - -

 OriginalPaper

Numerical study on die design parameters of self-pierce riveting process based on orthogonal test

Shan-ling Han 韩善灵, Zhi-yong Li 李志勇...

Look Inside
Get Access

Pages 308-312

OriginalPaper

Receiver autonomous integrity monitoring availability and fault detection capability comparison between BeiDou and GPS

Xian-li Su 苏先礼, Xing-qun Zhan 战兴群...

Download PDF (2193KB)

Pages 313-324

 OriginalPaper

Shafting coupled vibration research based on wave approach

Yong Yang 杨勇, Chi-dong Che 车驰东...

Look Inside
Get Access

Pages 325-336

 OriginalPaper

Operations scheduling for rail mounted gantry cranes in a container terminal yard

Zhan Bian 边展, Na Li 李娜, Xiang-jun Li 李向军...

 OriginalPaper

Modified numerical model for simulating fluid-filled structure response to underwater explosion with cavitation

Wei Xiao 肖巍, A-man Zhang 张阿漫, Yu Wang 汪玉

Look Inside
Get Access

Pages 346-353

 OriginalPaper

Influence of the inverse-time protection relays on the voltage dip index

Xin-ke Gao 高新科, Ya-peng Liu 刘珩朋

Look Inside
Get Access

Pages 354-360

 OriginalPaper

Hydraulic characteristics of multi-stage orifice plate

Wan-zheng Ai 艾万政, Qi Zhou 周琦

Look Inside
Get Access

Pages 361-366

 OriginalPaper

A new algorithm to automatically extract the drainage networks and catchments based on triangulation irregular network digital elevation model

Guo-dong Qu 屈国栋, Dan-yang Su 苏丹阳...

Look Inside

 OriginalPaper

**Study of graphene doped zinc oxide
nanocomposite as transparent
conducting oxide electrodes for solar cell
applications**

Pan-pan Li 李盼盼, Chuan-ling Men 门传玲...

Look Inside
Get Access

Pages 378-384
