16 PPE
Are personal protective equipment (PPE) requirements ensuring that kit is fit for purpose?

22 Bulker safety
New proposals raise hopes of preventing fatal liquefaction incidents

28 VDR
The latest VDRs record more data than ever. Is it too much or too little?

on the cover

Safety at Sea

IMO specifications for PPE are basic and it's largely left to local agencies to determine specific requirements. But this may not always be suitable for the different challenges faced at sea. In our feature **on page 16** we look at the feasibility of a global standard

Up close and personal
