Features

18 Short measures

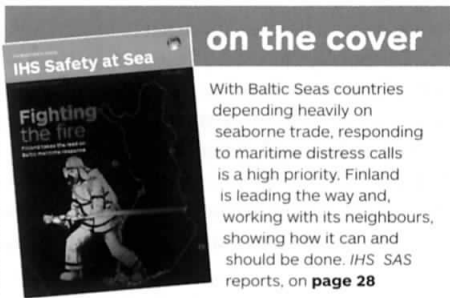

Tankers could face a crisis with too few officers and crew retention issues

22 Cyber concerns

Many owners seem slow to build cyber security into fleet safety management systems, creating a big risk

28 Training and crewing

Finland leads a co-operative approach to maritime emergency response

on the cover

With Baltic Seas countries depending heavily on seaborne trade, responding to maritime distress calls is a high priority. Finland is leading the way and, working with its neighbours, showing how it can and should be done. *IHS SAS* reports, on **page 28**
