

JOURNAL OF PROPULSION AND POWER

VOLUME 32, NUMBER 1

JANUARY–FEBRUARY 2016

E-41-5-3
 双月 V.32
 n-1

刊碼: N54-0023Z
 刊別: BM
 雜誌名稱: Journal of propulsion and power
 ISSN: 0748-4658 年代: 2016
 VOL. V.32 NO.1
 架號:

Announcements and Acknowledgments	D. G. Talley	1
ANNOUNCEMENT		
AIAA Policy Statements and Manuscript Review Process		13
FULL-LENGTH PAPERS		
Regression Rate Estimation for Swirling-Flow Hybrid Rocket Engines	P. Wongyai and D. R. Greatrix	18
Solid Amine–Boranes as High-Performance and Hypergolic Hybrid Rocket Fuels	M. A. Pfeil, A. S. Kulkarni, P. V. Ramachandran, S. F. Son, S. D. Heister	23
Effect of Magnesium-Rich Phase on Oxidation Properties of Atomized Aluminum–Magnesium Powders	H. Zou, L. Li, S. Cai	32
Heat Transfer of Hydrocarbon Fuel Under Steady States and Pressure-Transient States	J. Yan, Z. Liu, Q. Bi, Y. Guo, Z. Yang	38
Large-Eddy Simulation of Coaxial LN ₂ /GH ₂ Injection at Trans- and Supercritical Conditions	H. Müller, M. Pfitzner, J. Matheis, S. Hickel	46
Thermal Behavior Inside Scramjet Cooling Channels at Different Channel Aspect Ratios	S. Zhang, J. Qin, K. Xie, Y. Feng, W. Bao	57
Experimental Visualization of Cryogenic Backflow Vortex Cavitation with Thermodynamic Effects	Y. Ito, A. Tsunoda, Y. Kurishita, S. Kitano, T. Nagasaki	71
Combustion Instability Mode Transition in a Pilot Bluff-Body Stabilized Combustor	X. Fu, Z.-H. Guo, F.-J. Yang	83
Numerical Investigation of Flow Acoustic Coupling in a Half-Dump Combustor	D. Ashoke, K. Abhijit, K. Sudharsan, K. Geetha Sri	95
Predicting Lean Blowout Limit of Combustors Based on Semi-Empirical Correlation and Simulation	B. Hu, Q. Zhao, J. Xu	108
Characteristics of Controlled Mach 2 Elliptic Jet	S. M. A. Kumar and E. Rathakrishnan	121
Reduction of Aerodynamic Forcing Through Introduction of Stator Asymmetry in Axial Compressors	D. J. Monk, N. L. Key, R. D. Fulayter	134
Highly Loaded Low-Pressure Turbine: Design, Numerical, and Experimental Analysis	J. T. Schmitz, E. Perez, S. C. Morris, T. C. Corke, J. P. Clark, P. J. Koch, S. L. Puterbaugh	142
Fluidic Control Method for Improving the Self-Starting Ability of Hypersonic Inlets	J.-Y. Wang, L.-R. Xie, H. Zhao, Y.-L. Teng, G.-F. Ma	153

Table of Contents continued on back cover

CONTENTS—continued

Lip Stall Suppression in Powered Intakes	M. Carnevale, F. Wang, J. S. Green, L. Di Mare	161
Flow in a Y-Intake at Supersonic Speeds	V. M. Krushnrao Kottedda and S. Mittal	171
Design of High-Area-Ratio Nozzle Contours Using Circular Arcs	K. Schomberg, J. Olsen, G. Doig	188
Experimental–Numerical Parametric Investigation of a Rocket Nozzle Secondary Injection Thrust Vectoring	V. Zmijanovic, L. Leger, E. Depussay, M. Sellam, A. Chpoun	196
Performance Enhancement of Global Optimization-Based Gas Turbine Fault Diagnosis Systems	E. Mohammadi and M. Montazeri-Gh	214
Unsteady Thrust Measurement for Pulse Detonation Engines	D. D. Joshi and F. K. Lu	225
Beam-Riding Flight of a Laser Propulsion Vehicle Using Actively Controlled Pulse	M. Takahashi and N. Ohnishi	237
Electrical Facility Effects on Hall Thruster Cathode Coupling: Performance and Plume Properties	J. D. Frieman, J. A. Walker, M. L. R. Walker, V. Khayms, D. Q. King	251
