VOLUME 32, NUMBER 4

JULY–AUGUST 2016

## FULL-LENGTH PAPERS

Heat-Sink Enhancement of Supercritical Methylcyclohexane Cracking over Lanthanum-Modified Beta Zeolite . . . . .	B. Liu, Q. Zhu, L. X. Qin, X. J. Li, X. Y. Li S. Y. Tang and J. L. Wang	801
Assessment of the T5 and T6 Hollow Cathodes as Reaction Control Thrusters . . . . .	A. N. Grubisic and S. B. Gabriel	810
Skin Friction Sensor Development, Validation, and Application for High-Speed, High-Enthalpy Flow Conditions . . . . .	R. J. Meritt and J. A. Schetz	821
Testing and Modeling of a Porous Axial-Injection, End-Burning Hybrid Motor . . . . .	M. A. Hitt and R. A. Frederick Jr.	834
Electrical Facility Effects on Hall-Effect-Thruster Cathode Coupling: Discharge Oscillations and Facility Coupling . . . . .	J. A. Walker, J. D. Frieman, M. L. R. Walker V. Khayms, D. King, P. Y. Peterson	844
Thermoacoustic Coupling in a Multinozzle Staged Combustor . . . . .	B. Dolan, R. V. Gomez, D. Munday, S. Pack, E. Gutmark	856
Performance and Flame Visualization of Dicyclopentadiene Rocket Propellants with Metal Hydride Additives . . . . .	S. C. Shark, C. R. Zaseck, T. L. Pourpoint S. F. Son and S. D. Heister	869
Quasi-One-Dimensional Modeling of Internal Ballistics and Axial Acoustics in Solid Rocket Motors . . . . .	V. Kalyana Chakravarthy, A. S. Iyer, D. Chakraborty	882
Experimental Investigation of Flow Distortion in an Auxiliary-Power-Unit-Style Inlet System . . . . .	F. Lou, J. C. Fabian, N. L. Key	892
Mode Transitions in Hall-Effect Thrusters Induced by Variable Magnetic Field Strength . . . . .	M. J. Sekerak, A. D. Gallimore, D. L. Brown, R. R. Hofer, J. E. Polk	903
Numerical Prediction of Gaseous Aerosol Precursors and Particles in an Aircraft Engine . . . . .	J. Bisson, P. Seers, M. Huegel, F. Garnier	918
Blade/Casing Rub Interaction in Turbomachinery: Structural Parameters' Influence on Stability . . . . .	A. S. Kammer and N. Olgac	929
Transverse Instability Studies in a Subscale Chamber . . . . .	B. Pomeroy and W. Anderson	939
Remaining Useful Life Prediction and Reliability Analysis for an Individual Ion Thruster . . . . .	J.-X. Li, Z.-H. Wang, Y.-B. Zhang, H.-M. Fu, C.-R. Liu, S. Krishnaswamy	948
Experimental Characterization of Combustion Instabilities in High-Mass-Flux Hybrid Rocket Engines . . . . .	A. Fraters and A. Cervone	958
Boron Oxide Condensation in a Hydrocarbon-Boron Gel Fuel Ramjet . . . . .	S. Balas and B. Natan	967

Table of Contents continued on back cover

## CONTENTS—continued

Axial Bladeless Turbine Suitable for High Supersonic Flows . . . . .	N. Vinha, G. Paniagua, J. Sousa, B. H. Saracoglu	975
Hybrid Rockets with Axial Injector: Port Diameter Effect on Fuel Regression Rate . . . . .	D. Bianchi, F. Nasuti, C. Carmicino	984
Large-Scale Multifidelity, Multiphysics, Hybrid Reynolds-Averaged Navier–Stokes/Large-Eddy Simulation of an Installed Aeroengine . . . . .	J. C. Tyacke, M. Mahak, P. G. Tucker	997
High-Temperature Inert-Gas-Plasma Faraday-Type Magnetohydrodynamic Generator with Various Working Gases . . . . .	M. Tanaka and Y. Okuno	1009
Performance Comparison Between a Magnesium- and Xenon-Fueled 2 Kilowatt Hall Thruster . . . . .	M. A. Hopkins and L. B. King	1015
Experimental Characterization of Tip Leakage Flow Trajectories in a Multistage Compressor . . . . .	R. A. Berdanier and N. L. Key	1022

## TECHNICAL NOTES

Calculation of Solid Rocket Motor Burnout Time from Experimental Ballistics Data . . . . .	D. E. Clemens	1033
Preparation and Characterization of RDX-Based Composite with Glycidyl Azide Polymers and Nitrocellulose . . . . .	B. Ye, C. An, J. Wang, H. Li, W. Ji, K. Gao	1035
Development of Ultra-Lean-Burn Preburners for Small Liquid Engines . . . . .	I. Moon, S. Y. Lee, I. Y. Moon, S. Lee	1040
