

Volume 21, Issue 1, February 2016

ISSN: 1007-1172 (Print) 1995-8188 (Online)

In this issue

(15 articles)

OriginalPaper

Optimization design and experiment of the radio frequency transmission utilized in video capsule endoscope

Gang Liu 刘刚, Guozheng Yan 颜国正...

Pages 1-6

OriginalPaper

Wind-induced effect of a spatial latticed dome structure using stabilized finite element method

Jiabao Lu 鲁佳宝, Xun Wang 汪汛, Dai Zhou 周岱...

Pages 7-17

OriginalPaper

Multilingual financial news retrieval and smart recommendation based on big data

Ye Liang 梁野

Pages 18-24

OriginalPaper

Comparison between North-South Aid and South-South Cooperation: Based on the analysis of the new development finance institutions

Wenxing Cui 崔文星

Pages 25-32

OriginalPaper

Review of managing the risks of offshore banking and its implications for the China (Shanghai) Pilot Free Trade Zone

Chuanyong Zhang 张传勇

Pages 33-43

 OriginalPaper

Formal or informal? The dispute settlement mechanisms of China's free trade agreements

Jun Zhao 赵军, Yu Hu 胡妤

Pages 44-50

 OriginalPaper

Price fluctuation, risk hedge and choice of optimal point

Chengzhen Zhao 赵成珍, Wei Bu 卜伟...

Pages 51-56

 OriginalPaper

Pricing credit default swap with contagious risk and simulation

Ruili Hao 郝瑞丽, Jinqing Zhang 张金清...

Pages 57-62

 OriginalPaper

Research on the construction of agricultural product virtual logistics enterprise

Fan Liu 刘璠

Pages 63-68

 OriginalPaper

Informed trading, heterogeneity investment, liquidity shocks and the valuation of credit default swaps

Xing Yang 杨星, Chun Fan 范纯...

Pages 69-80

 OriginalPaper

The impact of initial public offering lockup expirations on liquidity: Evidence from Chinese stock market

Xiaojun Chu 储小俊

Pages 81-89

 OriginalPaper

Five-axis interpolation of continuous short linear trajectories for 3[PP]S-XY hybrid mechanism by dual Bezier blending

Jing Shi 石璟, Qingzhen Bi 毕庆贞...

Pages 90-102

 OriginalPaper

Dynamic response analysis of a multi-column tension-leg-type floating wind turbine under combined wind and wave loading

Yongsheng Zhao 赵永生, Jianmin Yang 杨建民...

Pages 103-111

 OriginalPaper

Heuristics for the identical machine scheduling problem with preventive maintenances

Caili Jiang 江才林, Zhiqiang Lu 陆志强...

Pages 112-120

 OriginalPaper

Pulsed eddy current signal denoising based on singular value decomposition

Hongyun Zhu 朱红运, Changlong Wang 王长龙...

Pages 121-128
