In this issue

(17 articles)

OriginalPaper

Research on maximum power point tracking in redundant load mode for photovoltaic system

Jianjun Wang 王建军, Shanben Chen 陈善本...

Pages 257-262

OriginalPaper

On-line adaptive repetitive controller for power factor correction systems

Jialing Ju 鞠嘉凌, Bin Liu 刘斌, Jun Li 李俊...

Pages 263-269

OriginalPaper

Effects of compressibility and Knudsen number on the aero optics in hypersonic flow fields

Wei Ren 任维, Hong Liu 刘洪

Pages 270-279

OriginalPaper

Exploiting parallelism in the simulation of general purpose graphics processing unit program

Xia Zhao 赵夏, Sheng Ma 马胜, Wei Chen 陈微...

Pages 280-288

OriginalPaper

Saliency motivated pulse coupled neural network for underwater laser image segmentation

Bo Wang 王博, Lei Wan 万磊, Ye Li 李晔

Pages 289-296

 OriginalPaper

A novel de-noising method based on discrete cosine transform and its application in the fault feature extraction of hydraulic pump

Yukui Wang 王余奎, Zhijie Huang 黄之杰...

Pages 297-306

 OriginalPaper

Deliberative collision avoidance for unmanned surface vehicle based on the directional weight

Gongxing Wu 吴恭兴, Danda Shi 史旦搭...

Pages 307-312

 OriginalPaper

Buckling design of conical shells based on palm trunks: Survey of power-law distributed thin-walled conical

Lei Wu 吴磊, Wangyu Liu 刘旺玉, Zhangming Su 苏章明...

Pages 313-319

 OriginalPaper

A stochastic concession model for infrastructure projects under build-operate-transfer schemes

Yinghua Zhu 朱莹华, Feng Xu 徐峰, Hao Hu 胡昊

Pages 320-327

 OriginalPaper

Do China mainland and SARs constitute an optimal currency area? Evidence from nonlinearity and stationarity behavior testing on real exchange rates

Xiaoya Zheng 郑晓亚, Haibo You 尤海波

Pages 328-334

 OriginalPaper

A dynamic computable general equilibrium simulation of China's innovation-based economy under the new normal

Chengyu Li 李程宇, Shuai Shao 邵帅

Pages 335-342

 OriginalPaper

Different types of monetary policy instruments and regional housing prices: A comparative study on the influences of regulation in China

Gang Yang 杨刚, Hongwei Wang 王洪卫...

Pages 343-349

 OriginalPaper

Study on international development of financial asset securitization: An example of mining rights

Yaozu Xue 薛曜祖

Pages 350-354

 OriginalPaper

Small and medium-sized enterprises closed-loop supply chain finance risk based on evolutionary game theory and system dynamics

Cheng Zhang 张诚

Pages 355-364

 OriginalPaper

Research on gray system and quantitative model about the fundraising ability to China private equity fund

Meng Meng 蒙蒙, JiuHong Yu 禹久泓

Pages 365-369

 OriginalPaper

The coordination mechanism of supply chain finance based on tripartite game theory

Jinshi Zhao 赵金实, Yongrui Duan 段永瑞

Pages 370-373

 OriginalPaper

Causality of future and spot grain prices between China and the US: Evidence from soybean and corn markets against the

surging import pressure

Zhengwei Cao 曹正伟, Haiying Gu 顾海英...

Pages 374-384
