## In this issue

(19 articles)

---

OriginalPaper

### Urban end distribution optimization under e-commerce environment

Chaolin Zhao 赵超林, Hao Hu 胡昊

Pages 513-523

---

OriginalPaper

### Experimental study on the high speed mono-wave-piercing boat

Chengzhu Wei 魏成柱, Yinghui Li 李英辉...

Pages 524-529

---

OriginalPaper

### Numerical investigation of characteristics of water-exit ventilated cavity collapse

Nan Qin 秦楠, Chuanjing Lu 鲁传敬, Jie Li 李杰

Pages 530-540

---

OriginalPaper

### Simulation of temperature distribution in hot filament chemical vapor deposition diamond films growth on SiC seals

Jianjin Liu 刘建锦, Liang Wang 王亮...

Pages 541-547

---

OriginalPaper

### Experimental research and optimization on the environmental friendly R1234yf refrigerant in automobile air conditioning system

Junye Shi 施骏业, Cichong Liu 柳慈翀...

Pages 548-556

---

OriginalPaper

# Experimental exploration of electrical pulse-assisted roller hemming of AZ31B magnesium alloy sheet

Huanyang Xie 解焕阳, Kai Liu 刘凯, Qian Wang 王倩...

Pages 557-561

OriginalPaper

## Investigation of the capabilities of yield functions on describing the deformation behavior of 5754O aluminum alloy sheet under combined loading paths

Haibo Wang 王海波, Yanfu Liu 刘艳福...

Pages 562-568

OriginalPaper

## Combustion optimization model for NO<sub>x</sub> reduction with an improved particle swarm optimization

Qingwei Li 李庆伟, Keyi Zhou 周克毅...

Pages 569-575

OriginalPaper

## Robust principal component analysis via truncated nuclear norm minimization

Yan Zhang 张艳, Jichang Guo 郭继昌, Jie Zhao 赵洁...

Pages 576-583

OriginalPaper

## Non-probabilistic reliability research on multi-variable hydraulic turbine blade model

Yu Pang 庞煜, Xiang Zhang 张翔...

Pages 584-587

OriginalPaper

## Research on network maintenance strategy selection based on analytic hierarchy process and technique for order preference by similarity to ideal solution algorithm

Wei Xia 夏伟, Quan Shi 石全, Fang Wang 王芳...

Pages 588-593

OriginalPaper

# Study on simulation modeling and evaluation of equipment maintenance

Sheng Pang 庞升, Yunxian Jia 贾云献, Xin Liu 刘鑫...

Pages 594-599

OriginalPaper

## Modeling on spare parts inventory control under condition based maintenance strategy

Yabin Wang 王亚彬, Hongqiang Gu 谷宏强...

Pages 600-604

OriginalPaper

## Imprecise reliability assessment for heavy numerical control machine tools against small sample size problem

Zheng Liu 刘征, Yanfeng Li 李彦锋...

Pages 605-610

OriginalPaper

## Gearbox device failure mode criticality analysis based on support vector machine

Yonghua Li 李永华, Jinying Li 李金颖...

Pages 611-614

OriginalPaper

## Reliability analysis of multi-state repairable system with dynamic transition probabilities

Yingkui Gu 古莹奎, Jia Chen 陈佳...

Pages 615-620

OriginalPaper

## Online fault diagnosis of modern process industry system based on color-spectrum

Xu Gao 高旭, Jianmin Gao 高建民, Kai Sun 孙锴...

Pages 621-628

OriginalPaper

## Preliminary design of pressure torque separation sensor for drilling bit

OriginalPaper

## Reliability analysis of electrical system of computer numerical control machine tool based on bayesian networks

Tudi Huang 黄土地, Jing Yan 宴晶, Mei Jiang 姜梅...

Pages 635-640
