## Highlights of the ACM Student Research Competition

Since 2003, ACM in conjunction with Microsoft have sponsored research competitions for undergraduate and graduate students in computing. The following process is used to select SRC winners.

## Heidelberg Laureate Forum

This is the fifth year of the [Heidelberg Laureate Forum](#) and it continues to be a highlight of the year for me and for about 250 others who participate. This year, computer science was heavily represented.

## Would Turing Have Won the Turing Award?

Today, Alan Turing is widely regarded as one of the most outstanding scientists of the 20th century, but that was not the case in 1966. The question, therefore, can be posed as follows: Would Turing have won the Turing Award? ...
