

# BIOLOGY OF REPRODUCTION

VOLUME 97, NUMBER 3  
SEPTEMBER 2017

## Contents

### Highlights

- A novel reporter mouse to monitor in vivo retrotransposition in the germline  
*Chen Chen* ..... 335

### Review

- Selective progesterone receptor modulators for fertility preservation in women with symptomatic uterine fibroids  
*Mohamed Ali and Ayman Al-Hendy* ..... 337

### Embryo

- Transcriptome profiling of individual *rhesus macaque* oocytes and preimplantation embryos  
*James L. Chitwood, Victoria R. Burrue, Michelle M. Halstead, Stuart A. Meyers and Pablo J. Ross* ..... 353

### Female Reproductive Tract

- Cell-based computational model of early ovarian development in mice  
*Hannah M. Wear, Annika Eriksson, Humphrey Hung-Chang Yao and Karen H. Watanabe* ..... 365

- Seipin deficiency leads to defective parturition in mice  
*Ahmed E. El Zowalaty and Xiaoqin Ye* ..... 378

- Stromal fibroblasts from perimenopausal endometrium exhibit a different transcriptome than those from the premenopausal endometrium  
*David W. Erikson, Fatima Barragan, Terhi T. Piltonen, Joseph C. Chen, Shaina Balayan, Juan C. Irwin and Linda C. Giudice* ..... 387

- WNK lysine deficient protein kinase 1 regulates human endometrial stromal cell decidualization, proliferation, and migration in part through mitogen-activated protein kinase 7  
*Nyssa R. Adams, Yasmin M. Vasquez, Qianxing Mo, William Gibbons, Ertug Kovanci and Francesco J. DeMayo* ..... 400

- Effect of metabolic status on conceptus–maternal interactions on day 19 in dairy cattle: II. Effects on the endometrial transcriptome  
*Stefan Bauersachs, Constantine A. Simintiras, Roger G. Sturmey, Stefan Krebs, Jochen Bick, Helmut Blum, Eckhard Wolf, Pat Lonergan and Niamb Forde* ..... 413

### Ovary

- Heat stress induces autophagy in pig ovaries during follicular development  
*Benjamin J. Hale, Candice L. Hager, Jacob T. Seibert, Joshua T. Selsby, Lance H. Baumgard, Aileen F. Keating and Jason W. Ross* ..... 426

- Iron suppresses ovarian granulosa cell proliferation and arrests cell cycle through regulating p38 mitogen-activated protein kinase/p53/p21 pathway  
*Mei-Jou Chen, Chia-Hong Chou, Chia-Tung Shun, Tsui-Lien Mao, Wen-Fen Wen, Chin-Der Chen, Shee-Uan Chen, Yu-Shih Yang and Hong-Nerng Ho* ..... 438

- Low-dose metronomic delivery of cyclophosphamide is less detrimental to granulosa cell viability, ovarian function, and fertility than maximum tolerated dose delivery in the mouse  
*Jacqueline Dynes, Kata Osz, Allyssa Hooper and Jim Petrik* ..... 449

## **Pregnancy**

Adrenomedullin improves fertility and promotes pinopodes and cell junctions in the peri-implantation endometrium

*Brooke C. Matson, Stephanie L. Pierce, Scott T. Espenschied, Eric Holle, Imani H. Sweatt, Eric S. Davis, Robert Tarran, Steven L. Young, Trudy A. Kohout, Marcel van Duin and Kathleen M. Caron* ..... 466

Human trophoblast-derived hydrogen sulfide stimulates placental artery endothelial cell angiogenesis

*Dong-Bao Chen, Lin Feng, Jennifer K. Hodges, Thomas J. Lechuga and Honghai Zhang* ..... 478

## **Reproductive Technology**

Microfluidics-based digital quantitative PCR for single-cell small RNA quantification

*Tian Yu, Chong Tang, Ying Zhang, Ruirui Zhang and Wei Yan*..... 490

## **Testis**

Deletion of *Spata2* by CRISPR/Cas9n causes increased inhibin alpha expression and attenuated fertility in male mice

*Jie Zhao, Jianjun Zhao, Guojin Xu, Zhijuan Wang, Jie Gao, Sheng Cui and Jiali Liu* ..... 497
