Master mariner chartered status launched; ballast management training updated; owners told training must evolve

### 32 Security insight

Patterns of piracy violence

### 33 Regulation insight

How the Ballast Water Convention will affect safety and maintenance

### 34 Safety briefing

A heater repair results in serious injury

### 36 MARS

Multi-tasking OOW and other cases

### 39 Products

Offshore crew carrier; insulated cables

### 42 View astern

The quandary of the human element

## on the cover

The collapse of operator Hanjin Shipping has been the industry's biggest story in 2016. In our review starting on page 22 we report on the uncertain future of the seafarers who manned its vessels, as well as other major maritime safety and security themes of the year
