## Features

### P18 Looking back over 50 years

The story of SAS and how crewing has changed over that time

### P22 Navigation & bridge

Join the S-Mode debate as ECDIS suppliers and the industry seek common ground

### P28 Enclosed spaces

Drones take risk out of cargo hold checks

## Regulars

### P4 Our say

The first in our series of guests editors to celebrate 50 years of *Safety at Sea*, Captain Kuba Szymanski of InterManager takes us through five decades of ship management

### P6 News round up

*Sewol* raised; three lost in explosion; and, 24 lost on *Stellar Daisy*. Plus, a ship tunnel in Norway offers a safer alternative; Ukraine pilots tempted overseas by higher wages being offered; and, rogue waves may be more common than thought

### P14 Security news

Pirate attack prompts US backing for armed guards and oil theft ongoing in Niger Delta

### P16 Training news

New online courses and in the US Kings Point midshipmen resume sea training

### P32 Security Insight

Cyber security: today's front line

### P33 Regulation insight

US outlines cyber security pathway

### P34 Safety briefing

Falling stores strike crew member

### P36 MARS

Fatality in dark workspace with hidden hazard

### P38 Safety focus

The danger of single-point reliance

### P39 Products

New kit to help prevent pirates boarding

### P42 View astern

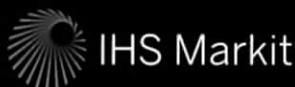

Using enclosed lifeboats in a man overboard situation still poses problems

## On the cover

Amid speculation over autonomous and remote-controlled ships, SAS considers what the future for the bridge and crew might be.
