

JOURNAL OF CIRCUITS, SYSTEMS, AND COMPUTERS

Vol. 19, No. 4 (June 2010)

Special Issue on Advances in Oscillator Analysis and Design

Guest Editors: *A. S. Elwakil (Univ. of Sharjah, Emirates),
T. Ueta (Tokushima Univ., Japan) and
K. N. Salama (King Abdullah Univ. of
Science and Technology, Saudi Arabia)*

CONTENTS

Multi-Phase Oscillation in RF CMOS LC Oscillators Coupled by Mutual Inductors	733
<i>T. Kawanari and S. Moro</i>	
Phase Model Reduction and Synchronization of Periodically Forced Nonlinear Oscillators	749
<i>M. Bonnin, F. Corinto and M. Gilli</i>	
A CMOS Phase-Shift Oscillator Based on the Conduction of Heat	763
<i>T. Hirai, T. Asai and Y. Amemiya</i>	
Continuation Analysis of a Phase/Quadrature Electronic Oscillator	773
<i>F. Bizzarri, D. Linaro, M. Storace and A. Brambilla</i>	
Higher Dimensional Models of Cross-Coupled Oscillators and Application to Design	787
<i>A. S. Elwakil and K. N. Salama</i>	
Markov Chain Modeling and Analysis of Complicated Phenomena in Coupled Chaotic Oscillators	801
<i>Y. Nishio, Y. Komatsu, Y. Uwate and M. Hasler</i>	
Complex Pattern in a Ring of van der Pol Oscillators Coupled by Time-Varying Resistors	819
<i>Y. Uwate, Y. Nishio and R. Stoop</i>	
A Low-Voltage Scalable (1.8 v–0.75 v) CMOS Folded-Cascode LC Quadrature VCO for RF Receivers	835
<i>S. M. Rezaul Hasan</i>	

(Continued)

Cited in SciSearch®, ISI Alerting Services, Current Contents®/Engineering, Computing and Technology, Mathematical Reviews, INSPEC, io-port.net, Compendex and Computer Abstracts.

CONTENTS — (Continued)

- Higher-Order Chaotic Oscillator Using Active Bessel Filter 859
*E. Lindberg, G. Mykolaitis, S. Bumelienė, T. Pyragienė,
A. Tamaševičius, E. Tamaševičiūtė and R. Kirvaitis*
- A Non-Conservative Model of Second-Order RC Sinusoidal Oscillators 871
A. S. Elwakil

Special Section on Random Bit Generators

Guest Editor: M. Aliota (Univ. of Siena, Italy, and BWRC, UC Berkeley, USA)

- A Variability-Tolerant Feedback Technique for Throughput
Maximization of TRBGs with Predefined Entropy 879
T. Addabbo, M. Aliota, A. Fort, S. Rocchi and V. Vignoli
- Statistical Testing of a Chaos Based CMOS True-Random Number
Generator 897
F. Pareschi, G. Setti and R. Rovatti
