

# JOURNAL OF MECHANICS

Formerly *The Chinese Journal of Mechanics, Series A*

## PAPERS

1. Thermal Postbuckling Analysis of 3D Braided Composite Cylindrical Shells  
..... Z.-M. Li, D.-Q. Yang 113
2. Derivation of Cyclic  $p$ - $y$  Curves from Instrumented Dynamic Lateral Load Tests  
..... S.-S. Lin, C.-H. Lai, C.-H. Chen, T.-S. Ueng 123
3. Evolution Instability and Growth Competition Study on Langmuir Circulation  
..... R.-Y. Yang, C.-M. Liu, H.-H. Hwang, C.-H. Kong 135
4. A Modified Non-Dominated Sorting Genetic Algorithm with Fractional Factorial  
Design for Multi-Objective Optimization Problems ..... J.-L. Liu, T.-F. Lee 143
5. Dimensional Effect of Micro Capillary Pumped Loop  
..... T.-S. Leu, N.-J. Huang, C.-T. Wang 157
6. A Three-Dimensional Aggregate Generation and Packing Algorithm  
for Modeling Asphalt Mixture with Graded Aggregates  
..... R. Xu, X.H. Yang, A.Y. Yin, S.F. Yang, Y. Ye 165
7. Magnetic Fields Generated by a Mechanical Singularity in a  
Magnetized Anisotropic Half Plane ..... C.-S. Yeh, C.-W. Ren 173
8. Kinematic Study of an Innovative Dynamic Bridging Wrist  
External Fixator with Arthrodiastasis  
..... K.-S. Shih, S.-C. Lin, Y.-H. Liu, T.-H. Chang, S.-M. Hou, T.-W. Lu 187
9. Biomechanical Role of the Locomotor System in Controlling Body Center  
of Mass Motion in Older Adults During Obstructed Gait  
..... T.-M. Wang, H.-L. Chen, W.-C. Hsu, M.-W. Liu, T.-W. Lu 195
10. Adaptive Trajectory Control and Dynamic Friction Compensation for a Flexible-Link Robot  
..... V. Erfanian, M. Kabganian 205
11. Constructing Poisson and Dissipative Brackets of Mixtures by Using  
Lagrangian-to-Eulerian Transformation ..... K.-C. Chen 219
12. Control of Body's Center of Mass Motion During Level Walking and Obstacle-Crossing in  
Older Patients with Knee Osteoarthritis  
..... W.-C. Hsu, T.-M. Wang, M.-W. Liu, C.-F. Chang, H.-L. Chen, T.-W. Lu 229
13. Computational Modeling of Microchannel Flows on Laboratory Compact Disk (LabCD)  
..... C.-M. Lin, T.-C. Lin, C.-M. Tan, T.-H. Tsai 239
14. A Finite Element Model for Composite Beams with Piezoelectric  
Layers Using a Sinus Model ..... S.B. Beheshti-Aval, M. Lezgy-Nazargah 249

## TECHNICAL NOTES

15. Applicability of Reichardt's Hypothesis to the Prediction of Velocity  
Field of Multiple Parallel Plane Jets ..... A. Nasr, J. Lai N17
